Beloved Woman Goes To Her Reward

Mrs. Annie Scott, widow of the late Matt Scott, died very suddenly of heart failure at 10 o'clock this morning at her home on Samuels avenue. Mrs. Scott, who was in her 73rd year, had been feeling unusually well and was assisting in some household duties when stricken with a severe pain in her heart, and expired a few moments later, before a physician could be sent for.

She is survived by two daughters, Mrs. Robert Collier and Mrs. Percy D. Bryan, of this city; one son, Will Scott, of New York City; two sisters, Mrs. Anne Priest and Miss Emily Roberts, and one brother, George Roberts.

Mrs. Scott was a devoted member of the Christian church and led a pure consecrated christian life, always ready to answer the summons whenever it might come. Her life was one indeed well worthy of emulation and the noble example set by her will live long in the hearts of those nearest and dearest.

The funeral arrangements will not be made until the arrival of Mr. and Mrs. Will Scott from New York.

Classy Attraction at The Tabb Friday

W. B. Small, Manager, announces that Otis Skinner in "Kismet" will be the attraction at The Tabb Theatre Friday. This announcement, we are sure, will be received with much pleasure by theatre-goers in this section as this is considered one of the biggest and best pictures ever screened in this city and it is sincerely hoped a large audience will be present to witness this stellar attraction. This same feature is being screened at the Ben Ali Theatre in Lexington this week and at the same prices as here, excepting war tax. Manager Small has had booked several of the best features out this season, but the audiences that have been attending have been very disappointing indeed and unless there is more appreciation shown for this class of pictures it will be impossible for the management to present to the patrons of The Tabb the newest and best in filmdom. Necessity demands that the class of pictures shown be gauged by the patronage and while Mr. Small desires to give the people of this section the very best to be had it is up to our people to support this class of entertainment if they expect a continuance of same.

Water Works To Be Perfected

The report on the streets that because of the fact that the high water had cut around the dam of the water plant Mt. Sterling would likely have a scarcity of water. Not so, for even should this condition be permitted to remain during the entire season there would be from this source and in this condition an abundant supply of water for Mt. Sterling, says the superintendent. It will not be permitted however, for the Vice President of the company, who was here recently, said there is nothing to worry about for this cut out will work to a blessing in disguise to the water company.

A structure will be put in at once that will prevent any damage and as soon as water recedes to its normal condition the concrete dam will be extended forty feet, giving an additional water surface and preventing any recurrence of inundating the power plant, thereby stopping the pumping station in its work. In addition to this steam power there is to be inaugurated and electric motor power by which the plant will be operated. These improvements will be done at a big expense and will greatly add to the value of the plant and in perfecting the system as well.

McDonald Bros. Sell To Ramsey & Mason

J. C. Ramsey and W. A. Mason have formed a partnership and purchased the coal and feed business of McDonald Bros., one of the most substantial businesses in this city, and will continue the business from the same location. These gentlemen are correct business men with the needed push and enterprise and we feel sure they will soon forge to the front with others.

Mr. John McDonald will remain in the city as a live stock dealer in which he has had much experience. At first he comes in contact with the farmer as he offers to buy wool, the season now on. The farmers will be glad to learn that Mr. McDonald is to continue to do business with them and the people generally will be pleased to know that he is to continue to make Mt. Sterling his home.

The future of the coal and feed concern under the able guidance of Mr. Ramsey and Mr. Mason is destined to a successful future and we gladly welcome these enterprising gentlemen among our live business men.

Former Citizen Ill In Florida Hospital

News was received here today stating that George S. Seal, formerly of this city, is in a serious condition at Bayside Hospital at Tampa, Fla., where he and Mrs. Seal were spending the winter for the benefit of his health. Mrs. Seal is the daughter of J. Milt Hall, of this city.

Mr. Seal has been in the real estate business in Atlanta, Ga., for the past fifteen years, his health failing him some two years ago, when he sold his real estate business and came to Kentucky. Upon returning to Atlanta his physician recommended that he go to Florida. Mrs. Seal's sister, Mrs. J. T. Pledged to Honorary Journalism Fraternity

Miss Irene McNamara, of this city, and a Sophomore in the Department of Journalism, at the University of Kentucky, has been pledged to the Chi Chapter of Theta Sigma Phi, Woman's National Honorary Journalistic Fraternity of America. The pledges of this fraternity are taken from members of the Junior class of good standing and that show a marked talent for journalism. This year for the first time in the history of this fraternity were members ever taken from any class beneath the Junior or Senior class.

Miss McNamara has covered every field of journalism as are noted in her feature stories, human interest stories, dramatic criticisms and various short stories that appear in The Kentucky Kernal, the semi-weekly publication of the University of Kentucky. Recently she has been promoted to Associate Editor of this paper and is now at the desk of copy reader and headliner of the stories handed in by other reporters.

Mary Roberts Reinhart, Fannie Hurst and many of the most famous American writers are members of Theta Sigma Phi Fraternity, and this is indeed the highest honor that can possibly come to one who is pursuing the profession of journalism. This is the best national journalism fraternity in America and it is indeed a great honor that has come to one so young in the study of journalism as Miss McNamara.

The names of the members of this fraternity are kept on the register at the national chapter at Chicago and it insures the members of a permanent position on any newspaper or magazine in America.
